

Current precautions to mitigate the spread of COVID-19

The majority of Mercy Circle residents and staff members are fully vaccinated against the virus.

Still, our community follows all CMS guidelines designated as protocols for senior living communities by the Chicago and Illinois Departments of Public Health.

All residents, employees and visitors must comply with these precautions to mitigate the spread of COVID-19 that include

- Staying home if experiencing symptoms of the virus or may have been exposed to it
- Screening everyone who enters Mercy Circle
- Monitoring yourself for symptoms of the virus and requesting a rapid test if you experience any symptoms or may have been exposed to COVID-19
- Wearing a face mask that covers both your nose and mouth
- Practicing six-foot social distancing in all situations, especially entering and exiting common areas now clearly marked to facilitate distancing
- Washing your hands regularly using soap and water or sanitizer
- Conforming to Chicago's travel advisories
- Avoiding large crowds and unnecessary trips
